

Belting Fabricator
(2nd and 3rd Shifts)

Taconic, a highly successful global manufacturing company, is seeking a Belting Fabricator to cut belts and special fabricated pieces in accordance with factory order/customer specifications and as directed by immediate supervisor.

Duties include the following:

- Maintain quality control decisions for belting materials used for fabrication.
- Able to accurately measure and then cut parts to desired dimensions.
- Able to read and understand customer orders; then produce what is desired by the customer.
- Able to determine good material from unacceptable material.
- Process factory orders using fabrication equipment in the Belting Department. Examples include heat sealers, cutting equipment, sewing machines, and snap machines
- Read, calculate, and obtain necessary materials to fabricate belts per requirements of the factory order and customer specifications.
- Fabricates materials in accordance with written procedure manual (cut, splice, inspect and wrap on cores) on an as needed basis based on department needs.
- Accurately completes factory order by writing amount shipped, lot # and any special notes that apply. May include data entry into company computer database systems.

HS diploma or equivalent experience. Basic math ability with knowledge of how to use a calculator, tape measure and square. Must have good communication skills, both verbally and in writing. Must be able to work well with others and prioritize orders based on changing work conditions.

We offer a competitive benefits package including medical, dental, vision and life insurance, a competitive compensation and retirement package, tuition assistance, vacation, a business casual work environment and more!
