## Development Engineer

Taconic, a highly successful global manufacturing company, is seeking a self-motivated, responsible individual to work as a Development Engineer in our Engineering department.

As a Development Engineer you are responsible for the development of new products and processes to ensure a competitive market position based on technical and manufacturing capability.

Requirements:

- Bachelor's degree in Material Science, Polymer Science, Polymer Chemistry, Plastics Engineering, Chemical Engineering, or related disciplines.
- Must have a minimum of three years of Engineering experience.
- Ability to communicate effectively and establish and maintain effective working relationships within all levels of the organization.
- Must be self-driven with strong project management and organizational skills.
- Must have exceptional interpersonal skills and the ability to communicate effectively throughout all levels within the organization.

We offer a competitive benefits package including medical, dental, vision and life insurance, a competitive compensation and retirement package, tuition assistance, vacation, a business casual work environment and more!

For immediate consideration please email resume to [hr@4taconic.com](mailto:hr@4taconic.com), call 1-800-833-1805, ext. 368 or apply in person to:
