

Product Specification **A970**

Taconic A970 is a standard 30 mil, tan colored open mesh PTFE coated fiberglass fabric. This fabric comes with ¼” (4mm) square mesh openings to encourage good airflow. The mesh fabric has excellent heat resistance and good release properties. Common applications are tray liners and open mesh belting (where airflow is advantageous). Maximum width is 189” wide

Product Properties	Units	Value	Tolerance	Test Method
Reinforcing Substrate		E-GLASS		
Coating Type		PTFE		
% Coating	%	33	+/- 2%	
Total Coated Weight	lbs/yd2	0.89	+/- 5%	ASTM D4969
Nominal Thickness	inch	0.033		ASTM D4969
Tensile Strength	lbf/in	225	Typical Warp	ASTM D902
		145	Minimum Warp	
		175	Typical Fill	
		120	Minimum Fill	
Win Open Size (length)	inch	0.161		
Win Open Size (Width)	inch	0.169		
Opening Area	inch/square	0.0272		
Operating Temperature	°Fahrenheit	-100° to +500°
